

# CROSSFIELD CHRONICLE

VOL. XXIII. No. 29

CROSSFIELD, ALBERTA, AUGUST 7th, 1930

PRICE 1.50 A YEAR

The money people pay for things is not as important as the satisfaction they get from them.

The more one pays for an article, the more he thinks of that article.

If you buy a piece of equipment that offers a life-time of satisfactory service, the price is a small consideration.

If you haven't looked over our line of

## Monarch Ranges

do so now, and let us tell you about the easy way they can be bought.

The price may seem high, but value considered, they are the cheapest article in the store.

## Crossfield Won Both Games from Blackie

Two Real Ball Games Mark Closing of Baseball Season. Crossfield Won 32 Games This Year

Crossfield won a double-header from Blackie on Sunday, when they won the first game by a score of 5 runs to 3, and the second by a score of 2 runs to 0.

Lee pitched for the locals in the first game until the eighth inning, when he was forced to retire with an injured knee. Donnie McFadyen went in and finished the game holding Blackie to one run.

The second game developed into a pitchers battle between Speers of Blackie, (a former big leaguer) and Angus Robertson, local southpaw star. Angus had everything, and with good support Blackie were held scoreless for the first time this year.

Manager Bills was the heavy hitter of the day, he got six safe hits for the two games. Evert has been a consistent hitter all year. Russ James and Kid Patmore, two coming stars, played in the second game, and both turned in good games.

### THE TEAMS

Blackie—D. Malmberg, J. Admore, E. Malmberg, M. Gehrke, B. Recor, D. Speers, M. Steer, D. Alrid, L. Presley.

Crossfield—J. McDowell, E. Bills, D. McFadyen, D. McKinley, H. Lee, H. McFadyen, A. Robertson, P. Weiber, I. Heywood, R. James, D. Patmore, R. Smart.

Umpires—Smart and Pickett.

### Baseball Season Over

With the playing of these games on Sunday, the curtain was lowered on baseball for this season.

The fans have been treated to an excellent brand of ball this year, and although the Club is some what behind financially, we hope this can be straightened out so that a few will not have to foot the bill.

The locals played 43 games this season, and won 32. They also won the Rosebud league for the second year in succession. Scotty Lee had a good year of it, and won 18 games out of 21 games in which he pitched.

### HUMILITY!

My friend don't become too puffed, take a quiet walk through the village cemetery any day. On a neglected lot you will likely find a tomb stone and on it inscribed the name of a man who in his day was the whole works in town. No body moved without consulting him. He ran the lodge and church and school of the village. He was simply "It" in big brass letters. But time gathered him in and before the grass grew green on his grave he was forgotten by all except his immediate family. The town ran on just the same and there was no breakdown in machinery. So you want to remember that at best all of us are small potatoes and few in a hill. We must not get the idea into our heads that the town can't run with out us. Lots bigger men than us have wandered away after flourishing for a day and nothing serious happened. Things will run alright after we are gone. If we so live that our existence will remain a green spot for just a brief spell after we are gone we will have done well.—Ex

F. Johnson piloting a Kari-Keen plane, owned by the Dominion Air Industries, Ltd., Calgary, landed here on Tuesday evening and done a thriving business taking up passengers. Among those who took advantage of the opportunity of seeing Crossfield and district from the air were: Mrs. M. Clay, C. S. Casey, H. J. Sharp, Gladys Methers.

## Harvesting To Be General Next Week

Farmers are busy getting ready for harvest, and although some few here and there have started cutting barley and wheat, cutting will not be general until about August 15th, and possibly later than that west of here.

Wheat is expected to yield 20 bushels; oats 40 and barley 25. Implement dealers report a big improvement over business last year and a good many new binders are going out.

## Poor Foreign Crop Prospects Send Price of Wheat Up

WINNIPEG, Aug. 7.—Wheat, whose value had ebbed in recent months until it sold a week ago at 83 3-8 cents a bushel, the lowest in 16 years, spurted up to 5 to 6 1-8 cents from Tuesday's close and was 12 cents above the record low.

The serious drought in the Southwestern States and unfortunate harvesting conditions in mid-Europe have intensified the factors determining grain prices.

## Pete Knight Wins Championships in U.S.

Pete Knight of Crossfield, rated as Canada's best bronk rider of all time, is again making riding history in the United States.

At the recent round-up at Cheyenne, Wyoming, he defeated all the best riders in the United States to win first money. From Cheyenne, Pete motored to Mont Vista, Colorado, where he again won the bronk riding championship at the famous Ski Hi Valley Stampede.

Knight is now on his way to Pendleton, Oregon, for the famous Pendleton round-up, and he stands a good chance of winning this championship.

At Cheyenne round-up, veteran bucking horse contest judges described Knight as the strongest and best, balanced rider of bucking horses they had ever seen.

### All Together

While the policies in force in the Dominion have a very material effect on the prosperity of Canada at large, it is the policies inaugurated by the citizens of a community, be it village, town or country district, that make for the good of the citizens of that particular village, town or district. If the business men of the town are keen, active and willing to co-operate with each other for mutual benefit of the town, nothing can stop its progress.

### Truck Stolen in Calgary

According to the Herald, A. E. Tidball of Sampsonston, reported the theft of his Ford delivery truck from Fifth Ave. between 1st and 2nd Streets West, Calgary on Monday.

### Sign Articles for Publication

If the person who sent in a letter for publication re bootlegging, had signed the article we would have published it.

Contributions, articles and letters, intended for publication must be addressed to "The Editor" and signed by the writer.

We are pleased to note that the girls who attended Normal last year have positions. Margaret Murdoch will teach Meadowside school, Jeanette Laut, Aubus school at Alhambra, and Ruth Stauffer, Floral school.

Miss Alma Chambers and Mr. Leoford Chambers, who motored from Toronto to the Coast, are now visiting their sister Mrs. J. P. Methers.

## Prices Of Livestock Reveal Remarkable Strength Compared With Other Farm Products

In the price changes that have taken place in farm products, as also in other commodities, in the last 12 months, livestock food products stand up with outstanding strength. Lambs, hogs, and cattle—in that order—are now at a much higher level relative to the value of the same products a year ago than are butter, wool, wheat, and barley.

Prices for farm products in Canada have changed considerably since last summer and especially during

expressed as a percentage of the prices existing in July, 1929, which are taken as the base of 100. The table on this page gives both the monthly prices and the percentages that each month's price for each item forms of the base price. In the chart only the percentage changes are shown.

A glance at the right hand side of the chart will make it plain that at the end of the period three items, lambs, hogs and cattle, were well above butter and far above wool,

the first half of 1930. The tendency of all classes of livestock, wheat, feed grain, butter, and wool, which are fairly representative of general farming, has been downward.

A noteworthy feature is that the price level of livestock has not dropped so much as that of other farm products and they are the only items to show seasonal strength within the last two months.

The accompanying chart shows the percentage changes in relation to each other and in each commodity. The monthly average prices as reported officially have been taken and the changes from month to month

wheat, and barley in comparison with prices a year ago.

For the twelve months, therefore, it is evident that these three classes of livestock have declined less in price than other farm products and other commodities. They have shown fluctuation up and down, but their general level has been better maintained than in the other items.

If a lesson had to be pointed out it would be that meat-yielding livestock is a more productive form of farm husbandry than it is often considered. This is especially so at present with the low levels reached by grains and other feeds.

## Western Flour Mills

Industry Ranks First in Manufactures in Alberta and Saskatchewan

The flour and grist mill industry ranks first among the manufactures of two of the three prairie provinces. This industry comes first in both Saskatchewan and Alberta, and second in Manitoba. First position in Manitoba is held by slaughtering and meat packing, which is third in Saskatchewan and second in Alberta. Second position in Saskatchewan is occupied by butter and cheese, which is fourth in Manitoba and fourth also in Alberta. In point of production value, flour and grist mill products in Alberta, and slaughtering and meat packing in Manitoba were almost equal in 1928, the former having a value of \$21,005,000, and the latter of \$21,328,000.

## Growing Exhibition Grain

Practical Suggestions For Preparing Grain For World's Grain Show

At the recent meeting of the Manitoba Seed Growers' Association at Brandon, Dr. McFostie, agronomist of the M.A.C., gave the following practical suggestions for the growing and preparing of grain for exhibition at the World Grain show in Regina in 1932.

Dr. McFostie stated that the first essential was to obtain good, clean seed, pure as to variety since the grain samples will naturally be thrown out. The seed should then be sown on clean land to avoid mixing from volunteer growth. Treating for both loose and covered smut would avoid loss from this source. Sulphur dusting and early seeding would overcome the shrinking due to rust damage. A satisfactory sulphur dust can be procured from F. H. Wiley, 533 Henry Avenue, Winnipeg, and a small hand duster from the Niagara Sprayer Company, Middleport, N.Y. An application at the rate of 45 pounds of dust weekly from the time when rust first appears on the plants has usually given a fair control of rust.

In harvesting select the best sections in the field, pull out all off type plants and any other grains since it is much easier to clean in the field than it is to clean later. Avoid any marginal material because it is usually later and somewhat coarser. All grain should be left to mature before it is cut. After cutting it may be as well to cure some both ways. If cured outside it should be put up in small sheaves in small stacks and be covered. If inside, it should be hung up in small bundles, in dry well-ventilated rooms. For threshing a small rubbering threshers has given good results or it may be found advisable to thresh it out by hand.

In finally preparing the grain sample it is essential to obtain one with grains of similar size and shape. This can only be accomplished through a great deal of painstaking work trying different sieves, different cleaners, etc.—Free Press.

## Creates a New Record

Crop Report For British Columbia Is Very Gratifying

British Columbia's annual crop report issued by the Department of Agriculture shows that agricultural production for the year 1929 totalled \$59,632,890, which is an increase of \$3,968,647 over that of the previous year and creates a new record. While this increase is due to some extent to prevailing high prices, substantial increases are noted in the volume of production of livestock, poultry products, dairy products, grains, honey, wool, hops and vegetables other than potatoes.

A campaign to print all menus in English has been started in London.

## Creamery Butter Production In Prairie Provinces Shows Increase Over Last Year

### Gatineau River

First Record Of The Name Of This River Appears In Year 1788

When Champlain in his ascent of the Ottawa River in 1613, reached what is now the state of the capital of the Dominion, on June 4, he noticed a tributary coming from the north. The river was the Gatineau. Champlain gives no name to it and as far as the Geographic Board of Canada is aware the first record of any name for the river does not occur till 1788. In that year, Lieut. David Jones made a report to Governor Haldimand in which he mentions coming "to the River Lettinoe (Gatineau), and from thence about a league to Shoadier (Chaudiere) Falls."

### Named By Franklin

Bathurst Inlet and Coronation Gulf Named In 1821

Bathurst Inlet and Coronation Gulf were so named in 1821 by the celebrated Sir John Franklin, 1786-1846, who led his first overland expedition to the Canadian Arctic in 1819-22. The gulf was so named because it was the Coronation year of His Majesty George IV. The name Bathurst Inlet commemorates Henry, third Earl of Bathurst (1762-1834), who was, at the time the name was given, Secretary for the Colonies.

(By Anabelle Worthington).

A navy blue and white printed crepe silk of smart practicality reveals feminine influence in plain blue shoulder bow and bow tied sleeves.

The tricky cross-over vestee of white silk pique adds distinction to its simplicity of line.

It's straight and slender to just over the knees, where the circular flounce starts to widen into flattering fullness at hem.

A narrow belt of the plain blue crepe marks the natural waistline.

Style No. 2550 can be had in sizes 16, 18 years, 36, 38, 40 and 42 inches bust.

Blue-violet wool crepe with vestee and bow trim of matching faille crepe is chic.

Foresh pink shantung, lime green fat crepe silk, daffodil yellow linen with white sheer lining, sailor blue pique dotted in white with plain white pique, coral-red chiffon and printed chiffon voile in black and white with plain white are charming suggestions.

The latest summary of conditions in the dairy industry by the Dairy and Cold Storage Branch of the Dominion Department of Agriculture affords some observations of interest:

Pasteurized butter graded during June, this year, amounted to 150,962 packages, an increase of 18,162 packages over the same period last year. For the year to date the 1930 figure at 288,511 is 8,024 packages ahead of last year.

Cheese graded during June, this year, totalled 206,178 boxes, or 17,384 boxes less than last year. The total for the year to date at 317,435 boxes is below last year, but there is an increase in the number of boxes grading "special" this year.

There was an increase of 245.66 per cent. in the volume of creamery butter in storage in Canada as at June 1, 1930, over the amount in store last year on the same date; and an increase of 439.87 per cent. in the volume of dairy butter in store. Creamery butter in store June 1, 1930, amounted to 10,798,823 pounds; dairy butter in store—361,035 pounds.

Cheese in store the same date amounted to 6,471,834 pounds, or 38.43 per cent. less than last year.

The export of cream and milk to the United States has practically ceased since the tariff of 85 cents per imperial gallon on cream came into formerly exported is now being made effect on June 18. Much of the cream

Creamery butter production in the Prairie Provinces shows a steady increase over last year—increases during May were: Manitoba, 20.5 per cent.; Saskatchewan, 7.7 per cent.; and Alberta, 15.1 per cent. over May of last year.

### Pastures and Proteins

Work Carried Out Which Will Be Of Great Interest To Dairyman

The value of pastures depends very largely on the amount of proteins—green feed—available to the animal using them. In this connection the studies of "close grazing" now being made by experts of the Dominion Department of Agriculture are of special interest. While still in the experimental stage the work already done holds much of interest for the dairyman. Briefly put, the object of close grazing is to provide an adequate and continuous supply of green fodder from succulent new herbage growth. This is done through the division of a suitable field area into four equal sections. While the herd grazes for a week on one section the new growth, rich in protein, is developing in the others. In this way a new pasture with three weeks growth of new herbage is regularly available.

### British Railways Are Progressive

Railways Preparing To Gain Control Of Air Services

Having acquired control of much of the motor-coach transportation in the country, railways of England are preparing to capture control of air services. Under powers acquired last year, the railways may operate airways. As soon as the large cities are in position to provide centrally situated aerodromes the rail lines will be prepared to run their own aeroplanes for passengers, express and freight, in combination with the train and steamship services. The railways expect to have within a year at least an 85 per cent. interest in all motor coaches in the country.

A colorscope which matches colors more closely than the eye has been invented by a New York physicist.

A substance, said to be harmless, for preserving the green color of vegetables has been discovered in England.

The canvasback duck can fly at a speed of almost 100 miles an hour.

Singapore, British Malaya, is to have a skating rink.

"When I was twenty-five years old I had my photo in all the papers," "As a politician!" "No, I was wanted by the police," —Pages Gales, Tverdon.

## National Map Of Canada

Area Of Canada Is Greater Than That Of Europe

The area of Canada is calculated to be 3,694,732 square miles, an area greater than that of Europe. Of this area only a small fraction has been adequately mapped. The Topographic Survey, Department of the Interior, is engaged in mapping portions of the country and is issuing as rapidly as possible sheets of the National Topographic Map of Canada. During 1929 four such sheets were published, nine in 1927, eleven in 1928, and seventeen in 1929.

## Agricultural Short Course

Course For Departmental Judges Held Annually At Guelph

A short course for departmental judges was held recently at the Ontario Agricultural College. Over 125 were present, including judges of ploughing matches, standing field crops, heavy and light horses, beef and dairy cattle, and sheep and swine. Classes were started some 15 years ago, and are primarily to get judges together for purposes of demonstration so that a uniform standard may be maintained for judging at shows and competitions.

## CANADIAN NATIONAL POLICE CHAMPIONS

Setting a record unequalled elsewhere in one year in winning trophies, the Canadian National No. 1 Revolver Team, of Winnipeg, in recent contests, captured the Dominion of Canada Open Championship (Revolver); Cartridge Company Cup; Dominion of Canada Rapid Fire Championship (D.C.R.A. Shield); Dominion of Canada Police Championship (Chief Constables Cup); Provincial Police Championship (Dominion Cartridge Company Cup). The members of the team are: H. Wheatley (left standing); J. W. Bruce (right standing); M. Ross (left sitting); R. G. Pickrel (centre sitting); Captain; J. Gurrick (right sitting). Captain Pickrel, who holds the highest individual record in every shoot, now has to his laurels the following honors: Canadian Revolver Championship; Canadian Pistol Championship; Canadian Pistol Championship (Canadian); United States Pistol Championship (Canadian Division);

United States Rapid Fire Championship (Canadian Division); Second Place World's Pistol Championship; Smith & Wesson Shield; Dickenson Cup; Webster Cup; Manitoba Open Championship; Drewry Cup; Manitoba Revolver Championship; Sir Daniel MacMillan Cup, M.D. 10 Championship; W. A. Murphy Prize; Canadian Revolver Association's Gold Badge; Highest Aggregate; Birks Medal; Highest Individual Record; Third Place United States Aggregate; Highest Aggregate D.C.R.A. Matches; Highest Record Score Provincial Police Championships; Highest Record Score Dominion Police Championships; Highest Record Score Dominion Open Championship.

J. W. Bruce holds the United States Intermediate Championship while M. Ross, another member of the Canadian National team, holds the Novice Championship of Canada.

## Says Churchill Is Real Port

American Visitor Is Much Impressed With Possibilities Of Northern Route

"Churchill has better prospects for a real port and a real city today than Chicago had when it was first started. The natural foundation for dock structures is stronger also." This was the statement of W. T. Miller, of Eldorado, Ill., veteran contractor of the northern states, made following his return from Churchill.

Mr. Miller is of the opinion the prospects for port facilities are 60 per cent. better and the cost of construction is 30 per cent. less in proportion to what it was in Chicago in the beginning of the city's history.

Mr. Miller was accompanied by John Vandye, also of Eldorado, who has been a locomotive engineer on United States railroads for many years past. He has been in the railway service for 28 years altogether.

Mr. Vandye says the roadbed on the Hudson Bay Railway is much better than he expected, and is of the opinion it is in excellent condition. The two visitors said that when the Hudson Bay Railway is completed that tourists will flock to the north and that many will look over various prospects with a view of settling there.

## Yolkless Eggs

Winnipeg Hen Is Responsible For Strange Freak

The exact opposite of the gooses of nursery rhyme fame that laid golden eggs is being enacted by a Winnipeg hen. Mrs. Russell McLeod is displaying yolkless eggs produced by this freak member of her pen. She discovered the eggs were worthless when she started out to fry them her favorite style—"sunny side up."

Italy's craze for sports is growing.

"I'm on a diet! I hardly eat anything and only drink water." "Well, wouldn't you like to come and have dinner at my house today?" —Pages Gales, Tverdon.

W. N. U. 1949

WORLD HAPPENINGS  
BRIEFLY TOLD

British Columbia's recent lumber mission to Australia will seek co-operation of the provincial government in securing a lumber tariff preference in that dominion.

The Italian council of ministers voted an appropriation of 100,000,000 lire, or about \$5,230,000, to rebuild the stricken earthquake area of Middle South Italy.

Mrs. Sarojini Naidu, woman leader of the Indian Nationalists, is said by the Daily Herald to be willing to compromise with the government somewhat short of Mahatma Gandhi's demands for independence.

The London naval treaty passed through all its stages in the House of Lords and only needed the royal assent before becoming effective. The bill gives legal support to the pact entered into at the recent London naval conference.

The visible supply of American grain at the end of July shows the following changes in bushels: Wheat increased 14,503,000; corn decreased 276,000; oats decreased 985,000; rye increased 39,000; barley increased 276,000.

Premier Ramsay MacDonald announced in the House of Commons that the government proposed to invite the leaders of the two opposition parties to nominate a representative from both Houses to participate in the round table conference on India which will be held this fall.

Great Britain's unemployment total is nearing the 3,000,000 mark, it was announced by the Ministry of Labor. The official statement said that on July 21 the number of persons out of work was 1,972,700, an increase of 32,854 in a week and \$80,057 in a year.

Brandon police are looking for the person who passed an American one dollar bill off on a local hotel for \$20. The bill was raised from \$1 to \$20 in such masterful style that the authorities are of the opinion that the country might be flooded with the bills. The work is thoroughly done and it was only when the bill had received close scrutiny at the bank that the deception was caught.

## Makes First Official Test

Premier Bracken Talks Over Radio Phone From Film Flon To Winnipeg.

From the staff house of the Hudson Bay Mining and Smelting Company at Film Flon, Mr. Bracken and Bruce Bracken, his son, held a combined radio and long distance telephone talk with Mrs. Bracken, Winnipeg.

The premier's conversation marked the first official test of the new radio phone system between Film Flon and The Pas and the results were entirely successful.

## Interesting Experiment

During recent experiments, Marconi has recorded air messages on a phonograph disc with perfect success. The experiment was made by the inventor while on his yacht lying near Genoa. The message was sent to Sydney, Australia, about 11,000 miles away. The recording was not only caught perfectly, but was re-transmitted from Sydney by wireless to the original sender.

## Prefer Silent Films

Motion-picture fans of Denmark prefer the silent film and soft music to the sound film. Especially is this apparent in Copenhagen. The principal reason is apparently the linguistic difficulties, which the partial translation of text, has failed to overcome. Few Danes understand English.

## Winnipeg Hydro Developments

J. W. Sanger, of the City of Winnipeg Hydro, states that, due to new developments and technical improvements that make it possible to transmit heavier voltages than in the past, it is now possible for Winnipeg to bring power from the Nelson River.

"Dear, dear! Trespassers will be prosecuted, and I haven't got any money with me."—Lustige Sachen, Leipzig.

W. N. U. 1849

## Chinese Stowaways

Party Of Six Have Narrow Escape From Death When Vessel Is Fumigated

Efforts of six Chinese stowaways to enter Canada aboard the British freighter, S.S. Benary, failed when they reached New Westminster recently.

The sextette were fortunate to be alive after more than two weeks in a coal bunker aboard the ship, and especially after fumigation operations took place. By some chance deadly cyanide gas failed to reach the hold where the Chinese were hiding.

Officers who entered the hold declared it was a marvel they survived the ocean trip as it was probably worse than the famous "Black Hole of Calcutta." It was believed that Chinese members of the ship's crew kept their compatriots provided with food on the long trip.

The ship left Yokohama on July 4. After being arrested they were turned over to the Vancouver immigration authorities to await deportation.

## Amended Grain Act

New Regulations Come Into Force

On September First By a proclamation in the current issue of the "Canada Gazette," the Grain act as amended shall come into force on September 1.

The act was re-written following recommendations made by the agricultural committee of the House of Commons, and was passed last session. A lengthy investigation of the operation of the act was conducted during the last two sessions of parliament and numerous amendments were approved. Several grades were given new definitions, clauses were inserted to prevent mixing of grades and the whole fabric of the act's operations was reviewed.

## Winnipeg Newspaper Union

(By Anabelle Worthington).

2572

Your little girl will look just as cute in this frock of sprigged dimity in lovely soft pink colouring.

It opens at the front beneath the pretty bows that are made of white organdy to match the cape collar. The skirt creates a spic and span appearance.

The full-cut bloomers peer smartly beneath. They have elastic inserted at the knees.

Style No. 2572 is designed for tiny tots of 2, 4 and 6 years.

For playtime, it is fetching in red and white gingham check with collar and bows of white plique.

Orchid linen with white dots with white sheer linen is unusually smart. Pale blue plique, dotted Swiss, French blue plique with white collar, printed tub silk in pale pink tones and yellow linen are attractive combinations.

Australia's Wheat Harvest

The wheat harvest for Australia, including Tasmania, was officially announced as 126,477,000 bushels for 1929-1930.

OUT DOOR LIFE CALLS  
FOR NOURISHING FOOD

By AMY SMITH  
Well Known Domestic Science Authority

Off for a day or a month—in the car or hiking, boating, or fishing, after a few hours you will find FOOD looms up as the biggest thing in the world's scenery, yes, but such appetites!

Of course milk, and plenty of it, is essential for nourishment. Amongst food—and for campers or picnickers Borden's St. Charles Brand Evaporated Milk is by far the best choice, providing plenty of pure, rich milk, regardless of weather conditions, rough journeys, out-of-the-way camping places—and lack of ice.

Because Evaporated Milk has had half the water removed, you can rely on its extra richness, which can be utilized to take the place of eggs or butter in many kinds of cooking. For instance, an old guide, famous for his fish fries, told me that in camp he always dipped the fish before undiluted Evaporated Milk, before the final coating with corn meal. When Evaporated is to be used instead of milk in any recipe it should be diluted with an equal part of water. Remember this simple rule and you will find it successful in your own recipes. To "cream" your coffee, use it undiluted.

Speaking of Fish—A "try pot" is used by Canadian guides for cooking large chunks. After dipping the pieces of fish in Evaporated Milk, the pieces are dropped into the deep fat (very hot) and fry until brown. And by the way, take this hint from a seasoned camp cook—a very little fire will do the trick in the right place. (If you sheltered from the wind) will do the job better than a face-basting contrivance.

A savory fish chowder is always a welcome dish in camp, and it's easily made with Evaporated Milk.

Fish Chowder Cut the fish in chunks and remove as many bones as possible. Cover the bottom of a pot with a layer of fat salt pork and fry out part of the fat. Remove part of the pork shreds, the skin and bones, and add raw potatoes, some sliced onions and a layer of fish. Cover with pieces of hard tack biscuit and season each layer, scattering the salt, for the pork is very salty. Repeat the process until the pot is two-thirds full. Add just enough water to cover to level of the top. Cover and simmer for one and one-half hours, or until the potatoes and fish are tender. Add one can of Borden's St. Charles Milk. Bring just to boiling. Serve.

Easy Hot Breads Hot corn breads to eat with the bacon, fish, or pork and gravy, are a huge success after a day in the open—or to begin the day.

Cornmeal Flapjacks 1 cup cornmeal, 1 cup flour, 4 teaspoons baking powder, 1/4 teaspoon salt, 1 cup Borden's St. Charles Milk, 1/2 cup water.

2 tablespoons melted fat (bacon fat may be used). Mix and sift the dry ingredients. Add the milk, diluted with water, and beat well. Add the fat. Bake on a greased griddle or frying pan. They need a little longer cooking than wheat griddle cakes.

Camp Corn Dodgers Put one quart cornmeal into a bowl. Make a hollow in center of meal and into this put one tablespoon lard and one teaspoon salt. Four over this equal parts Borden's St. Charles Milk and water heated to scalding point, stirring all the time until a dough is formed which can be molded with hands. Cool slightly, form into balls and cook slowly on a well greased griddle. (The quantity of diluted milk needed depends on the kind of cornmeal used.)

## Lost Purse Is Found

Pocketbook Lost Eight Years Ago Is Recovered In Corn Field

A pocketbook containing \$35 lost eight years ago, was recently recovered by the loser. Back in 1921 Jacob Slagb, a Michigan farmer, was assisting his brother-in-law, Koeps Vanden Bosch, harvest hay and lost his pocket-book. Vanden Bosch while cultivating corn in the same field spotted the purse, so worn it fell apart when handled. It was carefully kept together and brought to its owner who turned it over to the United States treasury department for redemption of the currency it contained.

## Faster Planes

Commercial planes of the future will have to be considerably faster to suit Lieut. Alford J. Williams, American speed ace. "If 130 or 150 miles an hour were to be the top speed we could hope for in commercial aid transportation. I would suggest that the public cease to waste its time on aviation and that they hereafter look upon it as a hobby," he says.

## Takes Brains To Be A Farmer

"It takes more brains to be a farmer than to be a High Court Judge," asserted J. Lockie Wilson, speaking at a gathering of Provincial fair judges at the Dominion Experimental Farm, Ottawa, recently. There never was a greater need for co-operation between the scientist and the farmer than today," he also stated; adding, "the most scientific business today is farming."

## CANADIAN ACTRESS

HANNAH "A GODLY MOTHER"

Golden Text: "My son, hear the instruction of thy father, and forsake not the law of thy mother."—Proverbs 1:8.  
Lesson: 1 Samuel 1:1-28; 2:1-11, 18, 19; 3:1-18.  
Devotional Reading: Luke 1:46-55.

## Explanations and Comments

Hannah's Prayer For a Son, Chapter 1:9-11.—Hannah and her husband Elkanah went regularly every year to the Sanctuary at Shiloh, there to worship and offer sacrifice at one of the great religious feasts, probably "The Feast of Ingathering," or "Feast of Tabernacles," which was held after the grape and olive harvest.

As was customary, after a portion of the sacrificial victim was burnt at the altar, and another portion had been given the priests, the family portion of the rest within the sanctuary precincts. But Hannah could not eat, for sad and bitter thoughts filled her mind as she contrasted her childless lot with that of Peninnah, Elkanah's other wife, who was blessed with many children. After the meal was over she presented herself in the temple to pray to Jehovah. Her prayer was accompanied by many tears as, standing with her face towards the ark, she made her vow that if Jehovah would bless her with a boy, she would consecrate him all the days of his life to Jehovah, and he should be a Nazirite, one set apart to the Lord, of which his unshaven head would be a token. The characteristic marks of the Nazirite were the refraining from wine and all intoxicating drinks, the letting the hair grow, and the avoidance of defilement by corpses.

The Answer To Prayer, 1:19, 20.—Hannah returned to her home in Bethlehem. When she was made happy by the coming of a son, she named him Samuel. "Forasmuch as I have asked him of the Lord." Hebrew scholars tell us that the word "Samuel" has connection with the Hebrew word for "asked," and they connect the first part of the name with the Semitic root for "name," taking Samuel to mean "Name of God."

Hannah Gives Her Only Son To The Service Of Jehovah, verses 24-28.—When Hannah weaned her boy, he was probably three years old, she brought him to the house of the Lord in Shiloh. She brought also an offering, as the law required for the first-born—three bullocks, a bushel of meal and a bottle of wine. The priest by recalling the time when he had seen her praying in the sanctuary and she presented the boy for whom she had prayed.

## Ontario Grain Pool

Announcement has been made by the Ontario Grain Pool that the initial payment to members is based on 65 cents per bushel for numbers two, three and four red, white or mixed wheat, and 26 cents per bushel for numbers two white oats and barley at milling grade. With maximum deductions of local handling the payments net growers 60 cents and 25 cents.

## Shortage Of Small Coins

French business men recently complained to the Ministry of Finance that there was an insufficiency of 50 centimes (approximately 2 cents) pieces in circulation and demanded a new stamp. The ministry estimates that there are 446,000,000 50 centime pieces in circulation.

## Feat Of Mountain Climbers

Eight Peaks Over Ten Thousand Feet High Are Negotiated

Eight peaks over 10,000 feet high, three of them unnamed, in the upper region of the Athabasca River and behind Maligne Lake, where the Canadian Alpine Club assembled at its annual camp, were reported to have been climbed for the first time with the return, after an absence of 17 days, of a party led by Dr. Max Strumia, of Philadelphia, and Dr. W. R. Hainsworth, of New York.

Accompanied by Newton Waife, of Orange, N.J., and John F. Lehmann, of Everett, Mass., Strumia and Hainsworth first climbed Mount Christie, 10,180 feet high, from a high camp on Pryatt Creek. Later, climbing Mount Belanger, 10,200 feet in altitude, they were within 50 feet of being swept to their death by avalanches and on their descent were held for three hours on a rock ledge till the descending sun rendered snowslides improbable and their progress less hazardous.

An unnamed peak near Mount Wole, whose altitude is placed at 10,700 feet, offered the greatest difficulty. Only by inserting "petons,"—iron spikes to which they could attach their climbing rope—into the crumbling rock, were they able to attain its summit.

Climbing from the site of the Canadian Alpine club on Maligne Lake, they made the first ascent of three peaks of Mount Maligne, all over 10,000 feet in height, and mapped for the first time the tremendous ice fields surrounding it.

Dr. Strumia, who has climbed in Switzerland, France, Italy and North America, a total of 75 peaks and made 25 first ascents, said recently that during the trip just completed through Jasper Park he experienced some of the most difficult rock snow work he has yet encountered. The party was outfitted by "Curly" Phillips.

## Humane Association Awards

Two Westerners Are Honored For Life Saving Deeds

At a meeting of the board of investigating governors of the Royal Canadian Humane Association, awards made included: Alexander Branch Quayle, Lady-smith, Nanaimo, B.C., for the rescue of Thomas Atkinson from drowning, April 13, 1930.

Samuel Rutherford, 1533 Retalack Street, Regina, Sask., for the rescue of Harry Elms from drowning, July 11, 1929.

## Latest Dodge In Paris

Launching books like ships is the latest dodge of boulevard book stores in Paris, to push sales. In the presence of friends and admirers, the author breaks a bottle of champagne over the first copy of his work to be formally placed on sale.

## Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

**WINDOLITE**

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

Distributors: JOHN A. CHANTLER & CO., LTD.  
51 Wellington St. W. TORONTO, ONT.

USE WINDOLITE IN BROODER HOUSES LAYING PENS DAIRY BARN SUNROOMS ETC.

## GIANT DIRIGIBLE R-100 REACHES ST. HUBERT PORT

Montreal.—After a weary wait, Great Britain's giant threat for the supremacy of the skies, hovered over St. Hubert airport, early on Friday, August 1st, just a little over three days after leaving Cardington, England, the R-100 reached the mooring mast, marking the end of the trans-Atlantic flight. Fabric trouble caused a delay of several hours, and cut down the speed after reaching the Gulf of St. Lawrence.

As newspapermen and ground crew awaited, the dirigible was first sighted 10 miles northeast of St. Hubert at 2:04 a.m. Eastern Daylight Saving Time, and was travelling easterly east towards the mooring landing field. Half an hour later the huge, silvery silhouette could be seen, barely moving, at an altitude of about 500 feet above the ground.

The final appearance of the wanderer after many hours of waiting, was the signal for an outburst of cheering from those at the airport. Behind the high fence surrounding the field, too, were perhaps a thousand people who have braved first a scorching day, then a wind-storm and rain.

It was not the first time the R-100 had experienced trouble with its fabric skin. On its first extended flight over England the fabric tore on the tail surfaces and the rear portion of the ship was rather extensively remodelled in an effort to prevent a recurrence of the mishap.

The ship stopped over the island of Orleans for two hours while repairs were made to the damaged fabric on her fin. The cloth was torn where the big airship was almost within sight of Quebec.

A large square flap of loose fabric was noticed in the top of the envelope. Captain Henry St. Martin, of Montreal, pilot of a "movie" plane flew within some miles of the airship and noticed that she was barely holding her head in to the wind.

"There seemed to be a tear in the top of the bag," Captain St. Martin said. "She hardly seemed to be moving."

She seemed almost to drift by Quebec, the noise of her motors being hardly audible from the ground.

Soon after passing the Quebec bridge the R-100 opened up her engines and her speed appreciably increased. She was flying at about 1,000 feet.

The shores of the St. Lawrence in the neighborhood of the Pelly were crowded with people eager to get a glimpse of the monster as she sailed by on the last leg of her trip.

### Imperial Conference

Premier Ramsay MacDonald Says Problems Of Unprecedented Difficulties To Be Faced  
London, Eng.—The Imperial Economic Conference must face constitutional problems of unprecedented difficulty, Premier J. Ramsay MacDonald told a meeting of the United Kingdom Branch of the Parliament Association, in Westminster Hall, recently.

The year is going to be one of the great, deeply marked years in history, thought Premier MacDonald, while believing in party government, he felt an attempt should be made to get Imperial questions considered first by all parties.

After all, he declared, the commonwealth and the nations which compose it are very much greater than any one party.

Declined To Receive Deputation  
London, England.—A parliamentary committee appointed to deal with grievances of Indians in Canada, informed a delegation of Six Nations Indians from Brantford, Ont., that Rt. Hon. J. H. Thomas, Minister of Dominion Affairs, had declined to receive the deputation on the ground the grievances claimed were a matter for consideration by the Canadian Government.

Body Of British Flyer Is Found  
London, England.—The Evening News carried a dispatch from Rangoon which said the body of the British flyer, Eric Hook, when found in the jungles of Burma, was little more than a skeleton. It apparently had been terribly mauled by a leopard or a tiger. Hook was lost when his plane was forced down on an attempted flight to Australia recently. His partner was saved.

W. N. U. 1849

### CANADA'S PREMIER-ELECT

## BENNETT WILL PROCEED TO FORM HIS NEW CABINET

Ottawa, Ont.—A special session of parliament—probably on or before September 11—is a certainty. Carrying out his promise to the Canadian people to deal with unemployment "immediately after July 28," Premier-elect Hon. R. B. Bennett is already taking action in this direction as the first step towards the implementation of the pledges he gave during the recent campaign.

Tuesday, September 2, looms as the probable date for by-election day if any minister selected by the Conservative chieftain to serve in his administration happens to be opposed.

By-elections will likely be held as soon as Mr. Bennett takes office as Prime Minister, with nomination day likely set for August 18, in case any chosen minister represents a constituency in which, under the Dominion Election Act, two weeks must intervene between nomination and polling day. The majority of constituencies only require the intervention of seven days.

Probable cabinet selections are the chief topic of discussion among political observers in the capital. In addition, speakers of both the House of Commons and the Senate will have to be appointed. By reason of his ill health, Hon. Hugh Guthrie (South Wellington), may be made speaker of the Commons, or George Black (Yukon), may be chosen. If his health, however, is considered to permit his undertaking more arduous duties, Mr. Guthrie will probably be appointed to the cabinet.

Hon. R. J. Manion (Port Williams), is another very probable selection. Dr. Manion was postmaster-general in 1926. Hon. J. D. Chaplin and Hon. E. B. Ryckman are prominently mentioned for other cabinet posts. For the province of Quebec, Sir George Perley (Argenteuil), former Canadian High Commissioner in London; Maurice Dupre, who defeated Gerard Lacroix, in Quebec West; Arthur Durneau, victorious Conservative candidate in Chambly Verchères, and Arthur Sauve, former Conservative leader in the Quebec legislature, are mentioned.

Premier E. S. Rhodes, of Nova Scotia, and W. G. Ernst, elected in Queens-Lunenburg, are possible appointees from Nova Scotia; in Prince Edward Island, Hon. J. A. MacDonald or J. H. Meyers continue to be mentioned for the cabinet. For the speakership of the senate, Hon. C. P. Beaulieu, Montreal, who was joint chairman at the 1927 Winnipeg convention of Conservatives, is a possible appointee.

### Has Nothing To Say

Winnipeg, Man.—Hon. T. A. Crear, Minister of Railways, who was defeated in Brandon constituency in the federal elections, before leaving for Ottawa, said he "had nothing to say" regarding possible plans for his return to the House by a by-election in some constituency.

### "A Great Deliverance"

St. John, N.B.—Hon. J. E. M. Baxter, Premier of New Brunswick, discussing the Dominion election result said: "I think Canada has sustained a great deliverance."

### GOVERNOR-GENERAL VISITS FIRST CANADIAN HEALTH UNIT

This picture was taken when Their Excellencies Lord and Lady Willingdon visited the County Health Unit in Beauceville, Quebec. This Health Unit was the first to be formed in Canada and has been operating on full time for a number of years with great benefit to the surrounding communities. A motion was made in the House of Commons during the last session asking the Canadian Government to consider subsidizing these small full-time medical departments in rural communities from coast to coast.

### SEES TROUBLE BREWING

## Chinese Pillage Homes

J. W. Gerard, U.S. ambassador to Germany under President Wilson, who upon recent return to New York from Europe, declares war is brewing between France and Italy.

### Emphasizes Independence

Pretoria, South Africa.—Emphasizing the complete independence of South Africa and her right to secede from the British Commonwealth of Nations if she ever in the future desired to do so, Prime Minister James Barry Hertzog delivered an important speech on the eve of his departure for the Imperial Conference in London, England.

"No iota or tittle of our independence will be sacrificed," he said. "I am convinced we possess complete independence. The people of South Africa will be prepared to an ever-increasing extent to heartily maintain co-operation with Great Britain and the other Dominions. But co-operation will depend on national independence. In no circumstances may the right to secede from the British Commonwealth be taken from South Africa."

Agitators Plan To Intensify the Civil Disobedience Campaign  
Bombay, India.—With plans for stiffening the boycott against British goods and intensifying the civil disobedience campaign believed to be its principal agenda, the working committee of the All-India Congress opened its sessions recently.

Only ten of the committee members were present, 22 being in prison on various charges preferred by the government. The sessions, held behind closed doors, were expected to continue three and possibly four days. Vallabhbhai Patel presided.

Members of the committee said the peace plans of Sir Tej Bahadur Sapru and M. Jayakar probably would not be considered. They added that the negotiations certainly would not influence the committee's decisions.

Party Standing  
Toronto, Ont.—The Canadian Press summary of the standing of the parties in the Dominion elections is as follows: Conservatives, 138; Liberals, 86; U.F.A., 10; Progressives, 2; Liberal-Progressives, 3; Independents, 2; Labor, 3; doubtful, 1; total, 245.

### Chinese Pillage Homes

Communist Loot and Burn Foreign Holdings

Shanghai, China.—In the most serious devastation of foreign property in China for many years, Communists looted and burned all or nearly all foreign holdings at Changsha, capital of Hunan province.

Foreigners generally were safe board British, United States and Japanese gunboats, five miles down the Siang River. Four missionaries who elected to remain in the city were unaccounted for.

Changsha was divided into 50 districts for pillaging. Directed by leaders, the despoilers carried foreign effects into the street as plunder before firing the buildings. Countless looking on were harangued by the Red leaders, and many were persuaded to join the Communist army to seize a share of property "wrongfully possessed by the upper classes."

Value of foreign property already burned amounted to millions of dollars. The total could not be estimated.

### Saskatchewan Egg Pool

Increase In Prices Over Those Paid In 1929

Regina, Sask.—An increase in prices over those paid for the same period in 1929 is noted in the final payment of the Saskatchewan Co-operative Poultry Producers Ltd., or Egg Pool, cheques for which are now being prepared at the head office here. This payment covers the second pool of the year, which closed Saturday, July 19.

The prices being paid are: Extra, 24 cents; first, 19 cents; second, 17 cents, and crax, 15 cents. They are net cash, f.o.b. shipping point on freight shipments.

## NATIONAL WORKS GO ON UNDER NEW GOVERNMENT

Ottawa, Ont.—The tide of party success ebbs and flows but the great national undertakings of this Dominion go on. Several governments have come and gone since the work was first started on the Welland ship canal. It was to have been officially opened on July 1, with a Liberal ministry directing. This formal ceremony was to be put off and now a Conservative government will be in office for this historic event. It is not expected the date for the opening will be fixed for some time.

In the case of the Hudson Bay Railway, the driving of the last spike was planned for last fall but these plans were changed. It was decided to have the celebration on the occasion of the opening of the ocean route rather than at the completion of the railways, so it will likely be next year. Therefore, the new government will officiate at the completion of the works started many governments ago.

The probability is that the new ministry's greatest undertaking will be the St. Lawrence River deep waterways. This prospect makes the portfolio of Minister of Railways and Canals one of the most important in the government, even more because of the canals than the railways. That is why many people in this city expecting Premier Howard Ferguson to be the one selected to fill that position.

It is interesting to trace the lives of governments alongside such works as the Welland ship canal and the Hudson Bay Railway. The first contracts for the railway were let by Rt. Hon. George F. Graham as Minister of Railways and Canals in the Laurier Government, in 1910. This was for one section. Then the government of Sir Robert Borden came into office and the contracts for two other sections were let by the Conservatives. Nelson was then the objective.

Work proceeded through the Conservative tenure of office and into the time of the Unionist regime. It was discontinued in 1915 because of the stress of the war. The government of Mr. Meighen came after that, and in 1921 the government of Mr. King took office. In 1929 the terminal was shifted from Nelson to Churchill, and the railway to that point was completed last year. The port construction and the aids to navigation are in course of construction.

The work on the Welland Canal was started under the Borden government, in 1913, and continued until it was stopped in 1917. It was started again under the Unionist government late in 1918 and has been continued ever since.

## MANY CHANGES IN PORTFOLIO OF IMMIGRATION

Ottawa, Ont.—Who will be the next minister of immigration? Many names are being forecasted. Some think Hon. Robert Rogers will get the post. With the change of government the conference on immigration will not likely be held at least until after the Imperial Conference.

Immigration has had more variety in the matter of bosses during the last ten years than any other department of the government. Before 1921, Hon. James Calder was minister of immigration. Previous to the elections of that year however the cabinet was reorganized and Hon. Dr. J. W. Brown took over the portfolio. He was defeated at the same time the Meighen Government was beaten.

In forming his ministry, Premier Mackenzie King first gave the immigration portfolio to Hon. Charles Stewart along with Interior. In 1923 however, Hon. James A. Robb took it over and held it until the reorganization of the cabinet before the 1926 election. Then, G. N. Gordon was then made minister of immigration. He met defeat in the election and the department came back to Hon. Charles Stewart.

During the brief Meighen regime in 1926, Hon. Dr. Manion was minister of the department for a short time and then Sir Henry Drayton. With the return of Mr. King's government, Hon. Robert Forke became head of the department and remained in that position until December 1929, when he went to the senate and the job came back to Mr. Stewart once more. The present minister is Hon. Ian Mackenzie who was named last month. The election campaign kept him in the west and papers of which he had to pass were forwarded to him here. Now there will be a new minister, but what's a new minister or two in the life of the immigration department. There have been ten changes in nine years and another one coming.

### Change Permit System

New System Of Liquor Permits To Be Introduced In Ontario

Hamilton, Ont.—Introduction of a new system of liquor permits under which the total amount of purchases will be designated in dollars and cents, was announced by Sir Henry Drayton, chairman of the Liquor Control Board, at the convention here of the Chief Constables Association of Canada.

This was one of the measures definitely decided upon to curb the abuse of liquor purchasers by recognized permit holders in Ontario.

Quarried by a delegate, Sir Henry admitted there were faults in the present Ontario system, but he declared, "I do not think we ever will have the free sale of beer in stores or in public houses."

A dangerous criminal sought in connection with a major crime usually is safe in jail while serving a nominal vagrancy charge. This was the message sent by Chief Mort. S. Wigle, of Windsor, in a paper advocating for police departments the privilege of taking fingerprints and photographs of persons held on charges of vagrancy.

### Want Wider Markets

British Columbia Lumbermen Look To Britain For Sale Of Products

Victoria, B.C.—Urging a greater participation in the British markets by B.C. lumber and asking that a delegation be sent to the Imperial Economic Conference in the "fall" to further this aim, a delegation representing the lumbermen of the province waited on Premier S. F. Timmins recently.

The lumbermen described conditions in the province as being exceedingly unfavorable at the present time. Prices were falling and demand was shrinking. The British market was the only one which showed possibilities of expansion.

### Wheat For China

Surplus Wheat From United States May Go To Famined Stricken Areas

Wakarusa, Kansas.—Senator Henry J. Allen, of Kansas, in an address here said prospects were more hopeful that some of this country's surplus wheat would be sent to the famine stricken areas of China.

President Hoover and Chairman Alexander Legge, of the Federal Farm Board, the senator said, are studying the possibilities of distributing wheat to the famine areas through the co-operation of the Chinese Government.

## World's Largest Aerial Fleet

Twenty-Six Airplanes Engaged In Aerial Work For Government

Twenty-six airplanes, working in thirteen detachments, are now engaged throughout Canada in aerial photography and surveying for the Canadian Government.

For the past few years Canada has been the leader in the work of taking photographs from the air for map making and in making aerial surveys of large areas of practically unexplored territory. This year's program of such work has the world's largest aerial photographic fleet on the task. Before the end of the season probably at least another hundred thousand square miles of country will be recorded on photographic negatives.

As in recent years the Forest Service of Canada will continue to carry on the work of forest fire protection in the provinces of Manitoba, Saskatchewan and Alberta, for the season of 1930, and for this purpose has arranged to continue the co-operative arrangements which it has had in the past with the Royal Canadian Air Force. In these three provinces the area over which the air patrol work is carried on approximates 100,000,000 acres, of which a large portion is unimproved. For this purpose 21 seaplanes and flying boats will operate to detect and suppress forest fire outbreaks. These machines will be capable of carrying greater loads than in other years and their better performance should add greatly to the efficiency of fire-fighting operations.

Of the thirteen detachments engaged in aerial photography and surveying one is operating in British Columbia; one in Alberta; four in Manitoba, Saskatchewan, the Northwest Territories; four in Ontario and Quebec; one in the Maritime Provinces; one has been assigned to special transportation work such as carrying surveyors, explorers and other officials into accessible regions, and another to the exploration and photography of the main aerial routes in the Far North. The experience of the last few years has shown that at least for many years aerial transportation will be almost the sole means of communication throughout these vast and little-known areas. The exploration of safe-flying routes is, therefore, regarded as one of the first considerations towards opening up this country.

### Furriers Use Cat Skins

Demand in London Results in Loss Of Household Pets

English furs are mourning the mysterious disappearance of pet cats, and it is all because Dame Fashion has decided that every well-dressed woman must possess a fur coat. Those with small purses cannot afford enormous sums, and so a cheap fur has had to be found to meet the situation. The cat poachers creep round the streets looking for stray cats. When they find a victim, it is chloroformed, pushed into a sack and then taken to their clearing station. There the unfortunate animals are killed and skinned, and their skins are taken off to the dealer. The West End of London has been the chief area for the poacher's activities, but now reports of the strange disappearance of cats are coming in from all parts of the country. So cat owners should be on their guard lest their pets, too, are spirited away for poachers.

### Was Adam a Chinaman?

Scientists' claim discovering further evidence that Adam and Eve were Chinese, and that the Garden of Eden is to be found in Central Asia. This is based upon reports from Dr. Davidson Black, of the Peking Union Medical College, that he has unearthed skulls having jaws and teeth of men who were likely lived 500,000 years ago in the pre-Neolithic days.

Outboard motors are now equipped with electric starters.

"I give board and lodgings and 43 a month. Will that suit you?"  
"Yes, ma'am. If it suits you for me to come only three days a month."—Pages Gaies, Yverdon.

W. N. O. 1849

## The Old-Time Doctor

Medical Fees and Prices Of Operations Show Little Change In Last 100 Years

Proof that medical fees and the price of operations have changed very little in the last 100 years in Canada is contained in the interesting tariffs of medical fees for the years 1830, 1855, 1874, recently on exhibit at the Ontario Medical Association convention.

A schedule of medical fees adopted at a meeting of the medical profession at the hospital in Toronto on February 14, 1830, quotes the minimum doctor's fee in the daytime at 5 shillings, or approximately \$12.50. Pulling teeth was extra. Each extraction cost 2 shillings, 6 pence, about 62 cents extra. In addition a doctor could charge 5 shillings a mile travelling expenses for country cases.

The mileage was to be computed from the market buildings in Toronto. For a journey to the coast, the same price as the extraction of a tooth. A major operation cost £10, or \$50, and a minor operation brought fees from \$5 to \$15.

From 9 a.m. to sunset, in 1855, fees were settled at \$2 maximum, and \$1 minimum. But after sunset the physician could charge anywhere from \$2 to \$8. He got from \$40 to \$200 for a major operation, and from \$2 to \$40 for a minor.

## Had the Password

Invited Guest Admitted To Restaurant But Not Excluded

A short time ago an ex-New York to him as they feel assured Dr. Craigie's year will be in Great Britain.—Free Press.

## Building the Silo

Details Of Construction Of Three Types Of Silos Now Available

In building a good silo the principal points to be considered are: The walls should be impervious, strong, smooth, and wind resistant; the architect of the Dominion Department of Agriculture. Attention should also be given to such points as durability, convenience, appearance, resistance to fire and frost, simplicity in construction, and low cost—both initial and upkeep. There are three principal types of silos—the monolithic concrete, the stave and the scantling, and their construction presents no particular difficulties. Complete specifications and detailed instructions with respect to the construction of silos of these types are available without charge in pamphlet No. 118 (New Series), now available through the Publications Branch of the Department at Ottawa.

## Poem Became Famous

Mrs. Rose Hartwick Thorpe of San Diego, California, author of the famous poem "Curfew Shall Not Ring Tonight," celebrated her 80th birthday on July 18. Mrs. Thorpe wrote the poem when she was 16 years old. It was first published in 1870. The editor wrote to her saying he could not pay for her verses, but that he would offer her a year's subscription to his newspaper. The poem met with instant favor and was reprinted throughout the country.

## Labor Parties Get Together

The national executive of the Labor Party and the administrative council of the Independent Labor party met in the British House of Commons to discuss the relations of the two bodies. It was decided that Rt. Hon. Arthur Henderson, of the Labor Party, and James Maxton, of the I.L.P., should draw up a formula with which the two organizations can work together.

The fruit of the so-called cream tree, grown in Sierra Leone, Africa, forms a most excellent cream.

Some of the detours are not even paved with good intentions.

## Rust Research

Plant Pathologist From England Will Devote Year To Investigation Work In Canada

W. A. R. Dillon-Weston, M.A., advisory plant pathologist of the School of Agriculture, sailed from England for Canada, to spend a year with headquarters at the Dominion Rust Research Laboratory at the M.A.C. Mr. Dillon-Weston's exchange with Dr. J. H. Craigie is made possible by the assistance of the research committee of the British Empire Marketing Board.

On arrival in Canada, Mr. Dillon-Weston will visit the various plant pathology laboratories and the experimental farms in the east, and will be the guest, for a time, of Dr. Archibald at the Central Experimental Farm, Ottawa, and will then come on to Winnipeg where he will study the work done by the laboratory here in connection with the stem rusts of wheat and the breeding of rust-resistant wheats.

Mr. Dillon-Weston is widely known for his investigations in the general field of plant pathology and more especially in connection with his work on stinking smut on wheat.

He has, for a considerable time, been associated with Sir Henry F. B. H. known the world over for his work in plant pathology, and who is the recognized leader in pioneer work in regard to stem rusts of wheat.

The faculty of the Dominion Rust Research laboratory here are looking forward with keen pleasure to meeting Mr. Dillon-Weston and hope to make his year in Canada as interesting to him as they feel assured Dr. Craigie's year will be in Great Britain.—Free Press.

## Pure Sunk

The Days Of The Monocle Are About Over

Monocles, long the trade mark of the stage Englishman, are rapidly disappearing in their homeland. One sees very few single glasses in Britain these days. They are worn mostly by college lads who use plain window glass, and by old-timers who acquired the habit back in the good old Victorian days and can't cast it off now. Ask the monocled one why he fosters this peculiar vanity and he will tell you that he has one bad eye. If you know him well, and press further, he'll admit it is pure swank.

## Perils To Trees

Leakage of electric current from high-power transmission lines often causes serious injury to trees, according to department tree specialists. Another common type of injury to trees and shrubs is scorching or burning as a result of the plants being where whitewashed or light-colored walls reflect the heat of the sun. Other types of injury to trees are caused by dense shade or too intense sunlight.

Four pairs of twins who attended a school at Muswell Hill, London, England, have all won scholarships.

## Adopt Pale-Face Son

Mark Poucette, Stony Indian brave and star performer at "Indian Days" celebrations at Banff, each July, and his wife, were heartbroken in 1914, for they had lost their three sons and were childless. The last of them, John Poucette, had been the particular pal of Dave White, son of a pioneer merchant of Banff, Dave White, Sr., who has been dealing with the Stony Indians for years and is highly respected by the tribe. In 1915 the bereaved Indian parents asked Mr. White if they might "share" his son. He agreed, and Mark Poucette, in a simple but touching ceremony, christened little Dave "John Mountain Stony" and declared "he was my boy too—he was my son." That was fifteen years ago and little Dave is now a grown man. He is shown in a magnificent head-dress, made by Mrs. Poucette, together with his foster-father, outside the Poucette's tepee.

## A Radiant Impulse

Interesting Experiment Conducted At The Edmonton Exhibition

At the Edmonton Fair, Alberta, an interesting phenomenon of radio drew large crowds to the Journal Broadcasting Station of C.F.C.A. situated on the Midway. By placing one's hand in front of a small microphone, owing to the electrical capacity of the body, there was observed a curious effect. A light-house lamp was immediately set alight, while a tiny electrical train began racing round on a small track. On the withdrawal of the hand the light went out and the train ceased.

Hundreds of people, and thousands of children made this remarkable experiment and demonstrated a profound truth regarding their own bodies of which they were doubtless unaware, the unconscious influence which each and everyone is capable of exerting.

Today the world is measuring its light and sound by wave lengths, and scientists are agreed that the healthy man and woman are in reality benefactors of mankind through the radiating impulses which emanate from a body attune to the laws of health harmony. But it works both ways, for while the strong, robust, wholesome person is a blessing to himself and others, so the sick and diseased are a positive danger all round, lowering the morale and creating a physical disorder which is harmful to young and old alike. Disease is an invading force, and in the future to be sick will no doubt be reckoned as an offense against society and dealt with accordingly. On every hand one sees the gospel of prophylaxis or prevention is being published from the houseboats, and taking the bull by the horns men are forcing the enemy to retire by maintaining their highest peak of health resistance to disease.

The Red Cross of today has a great part in the health education of the young by the distribution of health literature, by lectures and radio talks in the province of Alberta.

## Early Advertising

Roman Workman Had The Right Idea 1800 Years Ago

"Balbus made it." These words were stamped in Latin on a bright red trowel which was found recently by workmen digging the foundations for a new building near London Bridge, London, England. They found the trowel at the base of a Roman wall, with a Roman trowel, almost identical with a modern trowel beside it. Balbus was evidently one of the first men who perceived the value of advertising—Balbus made it." has also been found on other Roman utensils. His advertising enterprise has preserved his name for 1800 years.

Neither One Stenographer — "Howja spell sense?"  
Boss—"Dollars and cents or horse sense?"  
Stenographer—"Well, like in 'I ain't seen him sense.'"

## A World Language

Theory That The Radio May Bring This About Is Discussed

The suggestion that the need of a world language has been given compelling impetus by the development of the radio is probably open to challenge. That a universal speech would aid universal peace has been widely recognized. The increasing number of international conferences, estimated now at 300 a year, ranging from "bicyclists to free thinkers," is possibly also accelerating the desire. Commerce, too, would be facilitated by the adoption of a common medium of communication.

But practical difficulties should not be overlooked. Linguistic adaptation is something civilization has resisted for 10,000 years. The ancients travelled widely over what was then the known world without the necessity of first learning foreign languages. Nor have closer contacts broken down the barriers. German persists in rural districts of Pennsylvania and French flourishes in Quebec. Grand opera is enjoyed on both sides of the Atlantic undisturbed by the announcements which an alien grammar and syntax often impose on the school-room. Bernhardi has been welcomed here by great audiences to whom his lines might as well have been spoken in Sanskrit.

These traditions will not be easily upset by the popularity of the radio. English is firmly fixed. A culture that starts in the cradle persists to the grave in more cases than it yields to intellectual adventure. Latin and Anglo-Saxon races may absorb from each other, but they do not coalesce. Communication on artificial languages like Esperanto are even less likely. We have made only slight headway in cosmopolitan-mindedness, and our cosmopolitan ear is still on the deaf side—Philadelphia Inquirer.

## May Sell Estate

Reported That Earl Of Egmout Had Decided To Dispose Of Avon Castle

Frederick George Trevelyan, the rancher Earl of Egmout, has decided to sell not only Avon Castle, in Hants, the ancestral seat of his house, but also the heirlooms, silver and pictures, which go with the estate. The reason for the prospective sale lies in the large death duties levied on the estate of his grandson, the ninth earl, and the duties which his own estate must eventually be, states Lord Egmout in explanation.

It was only a few weeks ago that the Earl of Egmout was "squeezing" the title and its properties was confirmed by a judge of the high court. The earl says he will sell the movable estate. "I want to see how I can raise on them and other properties before putting a price on the castle," he added. The present and tenth Earl of Egmout succeeded to the title last year. He was formerly an Albertan rancher. His claim was contested by two persons, who traced descent from earlier earls, but the ninth earl, armed with the family tree, had designated the Albertan as his lawful heir and the high court upheld the present earl.

## Two Modest Filers

When Colonel Lindbergh and Squadron-Leader Kingsford-Smith met in New York, each credited the other with having made the outstanding flight in aviation history, and in a way each was right. The incident shows that the two are very capable and courageous men who retain their sense of proportion in the face of their great achievements. Because of their modesty the world regards them both with admiration and kindly feeling.

## A Happy State

I would I were beneath a tree;  
A-sleeping in the shade;  
With all the bills I've got to pay,  
Paid!  
I would I were beside the sea,  
Or sailing in a boat,  
With all the things I've got to write,  
Wrote!  
I would I were on yonder hill,  
A-basking in the sun;  
With all the work I've got to do,  
Done!

## Talkies For Blind and Deaf

A talkie apparatus is to be installed in the Royal School for the Blind at Leatherhead, England. Officials of the institution say that the totally blind will be able to follow the story by sound, the partially blind will see and hear and the deaf and dumb, of whom the school contains a number, will see the film.

Motorcycles in France now number more than 300,000.

## Women Direct Poultry Pool

Saskatchewan Poultry Pool Is Practically All-Feminine Organization

Farmers' wives boss the Saskatchewan Poultry Pool and the pin money they take in every 12 months is written in six figures.

The pool, an almost 100 per cent, all-feminine organization, is four years old, and last year took in a total of \$730,000. There is only one man with his finger in the pie, and he is outnumbered if not suppressed.

In the last 12 months the business turnover of the pool included 26,840,194 eggs, 2,230,682 dozen, valued at \$540,000. Also included in the turnover were 823,743 pounds of dressed poultry, valued at \$184,000, and 39,561 pounds of live poultry, worth \$6,000.

The egg business increased in 1929 over 56 per cent, and the dressed poultry 61 per cent over the previous year. The pool now handles about 75 per cent of the entire production of eggs in the province of Saskatchewan.

Mrs. Bertha Holmes, of Asquith, Sask., is president of the organization, and is known officially as the Saskatchewan Co-operative Poultry Producers, Limited, and five farmers' wives are on the board of directors. Originally the pool was established by women to provide them with pin money. Now they are buying automobiles on their earnings.

## Behold—The Hen

Everyone Can Take a Lesson From the Industrious Barnyard Fowl

"Did you ever stop to think—that hard times mean nothing to a hen? She just keeps on digging worms and laying eggs, regardless of what the newspapers say about conditions. If the ground is hard, she scratches harder. If it's dry she digs deeper. If she strikes a rock, she works around it. But always she digs up worms and turns them into hard-shelled profits, as well as tender broilers. Did you ever see a pessimistic hen? Did you ever know of one starving to death waiting for worms to dig themselves to the surface? Did you ever hear one cackle because times were hard? Not on your life! She saves her breath for digging and her cackle for eggs."—Exchange.

## New Kind Of Golliwog

Near-Sighted Lady Mistook Excited Child For Doll

The other day a kind lady took the minute, fuzzy-haired child of one of the Harrowby Kings, a negro quarter, to a big London store to buy him a present, says Mr. Gossp in the Daily Sketch. While she turned to talk to an assistant she left the child, a little and wide-eyed with excitement, sitting on a chair among the dolls. When she turned round again she was horrified to find a short-sighted old lady in consultation with another assistant. "What," she was asking, "is the price of this golliwog?" "It does not appear to be marked, madam," said the assistant. "I will go and inquire."

## Four Good Habits

If Cultivated Will Help Greatly In Attaining Success

There are four good habits—punctuality, accuracy, steadiness, and despatch. Without the first of these met in New York, each credited the other with having made the outstanding flight in aviation history, and in a way each was right. The incident shows that the two are very capable and courageous men who retain their sense of proportion in the face of their great achievements. Because of their modesty the world regards them both with admiration and kindly feeling.

Son—"I was just sowing my wild oats."  
Dad—"All Right; I'll attend to the thrashing."

Housewives of Edinburgh, Scotland, are just beginning to use electric washing machines.

"Don't you know that fishing is forbidden here?"  
"I'm not fishing."  
"Then what are you doing?"  
"Teaching a worm to swim."  
—Buen Humor, Madrid.

## Harsh, Gripping Purgatives Are Dangerous!

Cheap, harsh laxatives may prove very costly. Painful rectal troubles are often aggravated by the unnatural griping condition such cathartics cause.

ENO is pleasant, gentle, safe and sure.

A daily dash of ENO'S "Fruit Salt" in a glass of water, morning or night, tones up and sweetens the entire system. Acid stomach, fatigue, biliousness, quickly disappear.

### CHAPTER XXIII.

If there had been any doubt that Wickfield would accept Doctor Howe's assistant, it was dispelled when he successfully removed Diantha Moore's appendix.

"And no wonder," the old doctor said to Grandma, a week after the operation. "There wasn't time to take the child to the hospital. There wasn't even time to get a nurse. It's no easy thing to perform an operation under such circumstances. I felt like cursing the deacon for his parsimony in not having had his house wired for electric light, but I'll say for Luella that her lamp chimneys shone like little before seen in heaven or on earth! And somehow, we did the job. The first week's past and no complications have arisen—except Edgar! He asked me tonight if they couldn't get along without the nurse we got from Portland the next morning."

"I presume that poor Luella will never hear the last of the expense," sighed Grandma, "but I shan't waste too much pity on her because she put her head into the noose with her eyes open. Well, Edward, it's a long time since I've seen you to have a talk. With a doctor right in the house I haven't bothered you when I had an ache-or-pain—not that I'll ever feel the same to any doctor that I do to you," she added joyfully.

"The old man smiled.

"I'm only a habit, Polly," he reminded her. "You can trust John Carter, take my word for it. It's going to be easier leaving you all when my time comes, knowing you're in good hands. It was a fortunate day for me when I brought him here."

"And fortunate for us, too, Edward. I don't know how we'd manage without him to tend the furnace now Charman's away all day. But you mustn't talk about leaving us. We'll be glad to see you here. May be I'll go first, Edward, and be on hand to greet you in the heavenly kingdom."

"Perhaps you will," the doctor admitted, smiling, "but I hope not, Polly. I'd rather know that you were down here keeping watch over Wickfield from this window, and making a home for that dear girl of ours. I'd hoped to see her settled before I go, with some good fellow to take care of her. I had a method in my madness when I sent John Carter to board here; but as far as I know my hopes have borne no fruit!"

"I don't mind admitting to you," responded Grandma, "that some such notion has occurred to me. They're congenial, and though he doesn't look over and above husky, I guess Charman's strong enough to make up for anything he lacks. He's got good disposition, and he's not fussy about his food. He's good to look at."

too; but between you and me, Edward, I don't know what's keeping 'em apart unless it's Jimmy Bennett."

"Then you guessed wrong," replied Grandma with decision. "What made you think so?"

"Something Jim said to me before he went. I thought that was what reconciled him to leaving Wickfield. Well, it's possible that I misunderstood, and I'm not rooting for my young doctor if it's going to hurt Jim Bennett. Polly, you can bank on that. I never knew a finer, cleaner chap than Jim."

"Well," said Grandma, "I suppose these folks will have to settle it themselves. Edward. The best meaning friends and relatives are not much use at such a time. But it looks to me as if Jim was destined to spend his life picking peaches for his mother."

"I'd rather he picked one for himself, Polly," said the old man whimsically. "An Edgar Purdie is fond of quoting: 'It is not good for man to live alone,' and no one realizes that truth better than I; I've had a happy life, and I hope, a useful one; but I never come in after the day's work that I don't wonder how it would seem if Kate were there to greet me. No, I don't want either of those boys to live at home."

"You'll come again soon," asked Grandma wistfully, as her old friend picked up his shabby bag, and prepared to leave.

"Yes, I'll drop in often. From now on I'm going to take things easier and see more of the folks I really care for. Good-night, Polly. Give my love to Kate."

He was as good as his word. As the relentless New England winter gave way to warmer days, Charman became accustomed to finding the old doctor sitting with Grandma, when she returned from school. Yet he had not given up his work by any means. There were still some who would have none of the younger man while they could get the old; there were others to whom his very presence meant so much that he could not forsake them; and there were the poor and lonely who needed no medicine save his cheery greeting.

Spring was coming. Its breath was in the air, despite patches of snow that lingered tenaciously in shady places.

"I'm filled with a longing to clean house," said Charman, coming in on the two old folks one afternoon. "Fussy willows are out, though I thought they'd never come; and the frogs are peeping."

She stooped to kiss her grandmother, and when the doctor said, "Haven't you another of those to spare, child?" she kissed him, too.

"You're to have supper with us, Doctor," she commanded. "We'll have a party—you and Grandma, and Doctor John and I. I've simply got to do something to celebrate the return of spring. I feel as if I could hardly wait for the first May flowers!"

"I don't stay," said the doctor. "Only don't make company of me, my dear."

"I want to make company of you," laughed Charman. "I feel exactly like company. I shall get out the gold-banded china and use the Davis teapot though it's a tad too large. Here's John. If he's not too busy I'll make him help."

To judge from the voices and laughter issuing from the kitchen a bit later, the young man was not too busy to whip cream. Charman mixed up some biscuits. She arranged her pussy willows as a centerpiece, and got out the very last of Grandma's precious daisies to grace the board. It was a gay little supper. The old folks recalled the past to their hearts' content, while the young folks lis-

tered and laughed and sympathized. The young people did their share of the talking, too; and their audience was fully as sympathetic. Even a telephone call to South Wickfield for Doctor Howe, did not mar the party.

"At least," said Charman, "you let us finish supper!"

"And I'll go with you as chauffeur," declared John Carter, as the old man arose.

The doctor smiled happily at them all, and said: "I've had a beautiful time. Good-night, Polly."

He stooped, and with old-time gallantry kissed Grandma's hand, then turned to Charman and kissed her cheek.

"There are compensations for being over seventy," sighed John Carter, and they all laughed.

"Good-night," said the old doctor again as he reached the door. "Sweet dreams to both of you."

Afterwards they remembered that he had stood for an appreciable moment looking back into the room, as if to impress the scene upon his memory. And that night, his day's work done and his house in order, the old man crossed the River, so gently, so peacefully, that he did not even know he had embarked.

### CHAPTER XXIV.

Grandma sat at the window, looking out at a strangely deserted Main Street—waiting.

All Wickfield, she thought, must be at the church, paying the last tribute of respect and love to its old physician. The bank was closed; and the schools, also, Charman had begged to stay at home so that her grandmother need not be alone at this sad time; and Lizzie Baker had done likewise, "I see tears straggling unbidden down her cheeks as she implored: 'Please let us. You mustn't stay here by yourself.'"

Sallina Knowles had said: "I'll stay with you, Grandma. The doctor wouldn't want you to be alone."

But Grandma, refusing all these kindly offers, had replied gently: "I'd rather be alone, if you don't mind. It's what I want."

Doubtfully, nevertheless, they had turned away, to be reassured by the young doctor, who, even more than Charman, understood the old lady's mood.

"Don't you see," he explained at sight of their troubled faces, "it'll be easier for her with no one by? She's not even as sad about it as we are. She knows that her old friend is not dead—he is just away. Leave her alone."

So Grandma sat at the window, waiting.

"It's the sort of day that Edward always loved," she mused. "Spring in the air, and summer on the way. And he went just as he hoped he'd go. I remember he said only the other day, 'And may there be no sadness of farewell, when I embark.' He got what he deserved, a peaceful ending to a useful life. . . . What more could a body ask? . . . He's with his Kate, whom he loved and mourned for fifty years. . . . Maybe he's seen Father already, and told him how I sit by the window all day long watching the passing. . . . and about Charman, and the neighbors."

For a moment she closed her eyes. Then the song of a bird in the elm tree broke the stillness, and she said softly: "The services must be 'most over now. . . . He told Mr. Mary one to make 'em short—for him. Just the Lord's prayer (he wanted

"Do Not Hesitate to Try It"

"Your Vegetable Compound is a good medicine. Anyone who is in poor health should not hesitate to try it. When I was taking the Vegetable Compound I tried the sample Liver Pills I found in the package. I have taken them every night since and I can feel myself improving. I am so thankful for the good they do me that I have told several women about it."—Mrs. G. W. Pollif, 263 Huron St., Stratford, Ontario.

Lydia E. Pinkham's  
Vegetable Compound

## Your baby is safe with

every one to join in it, he said, and for Mr. Merry to read 'Crossing the Bar' . . . not much more. . . . It must be over now. . . . Yes—they're coming. . . .

(To Be Continued.)

### Canadian Women Seize Again

Canadian Women Greatest Travellers in the Summer Months

Another distinction may be marked up for the women of Canada. Last year a British artist publicly declared that in his opinion Canadian women were the most beautiful of their sex in the British Empire, and of course the women throughout the Dominion did not dispute what Canadians generally consider to be such an obvious fact. Now Canadian women are credited with being greater travellers than the men of their country. In summer, in one of the leading Canadian newspapers the following item recently appeared:—"Canadian women are great travellers—in summer. When father is at home, finding out his work, moving the lawn and keeping house alone, the wife and children go off to the seaside or the country and such movements constitute the bulk of the traffic."

"One of the big railway systems of Canada furnished a few days ago a two weeks' check on the sex of passengers in the height of summer travel. It was disclosed that eighty per cent. are females and twenty per cent. males. This disparity, however, does not exist all the year round. A similar check taken in winter disclosed about a fifty-fifty even break between the number of men and women travellers."

### Drives Asthma Like Magic.

The immediate help from Dr. J. D. Kellogg's Asthma Remedy seems like magic. Nevertheless it is only a natural remedy used in a natural way. The smoke or vapor, reaching the most remote passage of the affected tubes, brushes aside the trouble and opens a way for fresh air to enter. It is sold by dealers throughout the land.

### Canada Owes Much To Early Missionaries

Jesuit Fathers Opened North America To Civilization

The ceremony of canonization at Rome must make a deep appeal to all Canadians who are familiar with the early history of this country, regardless of whether or not they are members of the church that thus honored its devoted sons. The eight Jesuit fathers who nearly three centuries after their heroic deaths have been canonized played a great role in the opening to civilization of the northern half of this continent. No one can have read pages of Parkman without holding their memories in reverence. The story of their exploits and of their martyrdom is one of the most moving in the whole range of human annals.

The example that they gave was followed by a large company of other soldiers of the cross who carried religion and all the influences that follow in its train further and further into the outlying parts of what is now the Dominion. Our debt to these pioneer missionaries is one that cannot be over-estimated.—Edmonton Journal.

### Prince's Carpet Sold

A Scotch hand-woven wool carpet which covered the floor of Prince Charles Edward's bedroom at Culloden House, where he slept the night before the famous battle, brought up to auction at the sale of Glasgow, Scotland, recently. An ancient kiln-pot, measuring 18 inches across, which was said to have been used by the Highlanders on the field of Culloden, was eagerly bid \$9 and went for \$70.

"What did they teach you today in Sunday school, son?"

"I learned how to say, 'Yes, ma'am,' and 'No, sir,' when answering questions."

"Did you, indeed?"

"Yes."

### They Like Canada

Earl and Countess of Stair Favorably Impressed With Dominion

Laughingly reminding reporters who met them on their arrival a month ago, the Earl and Countess of Stair were both very ready to give their impressions of Canada, when interviewed at Montreal just before sailing for home on the Canadian Pacific "Duchess of Richmond."

"What we remember," Lady Stair said, "that we were afraid you were going to ask our opinion of the Dominion on the day we landed, and then let us off when we promised to give that at the end of the visit."

Both were enthusiastic about the Dominion, which they visited from coast to coast during their month's stay. "What really appealed to us more than anything," Lord Stair remarked, "was the hospitality of Canadians. By George, they don't pare what it is you want, they jolly well get it done for you."

"One of our principal interests during the visit was to see the conditions under which the cattle we shipped out here are herded. And I must say that, very disappointed to see so many Holsteins and so few Scottish cattle. The Ayrshires we sent out to British Columbia last September are in remarkably fine shape."

During their visit to the coast, the Earl and Countess paid a visit to the Agricultural College at Vancouver, where they were shown prize-winning cattle also from their own Scottish estates.

### In Memory Of Canadian Poet

Memorial Erected To Elsie Carman, N.B.

The house in Fredericton, N.B., where Elsie Carman, noted Canadian poet, was born, has been memorialized. A bronze tablet on the front of the house was recently unveiled. The inscription on the tablet reads:—"In this house Elsie Carman, Canadian bard and internationally loved poet, 1861-1929. This tablet is erected by the Imperial Order, Daughters of the Empire in New Brunswick, Earth of my mother earth, spirit to thee."

This is the first memorial erected to Elsie Carman, who died in Connecticut, June 8, 1929, and whose remains had been brought to his native home by the Government of New Brunswick and buried at Forest Hill Cemetery, Fredericton, where a suitable monument will mark his grave. It is proposed to erect a statue of this famous son of New Brunswick in the capital of his native province and the city where he spent his boyhood days.

### Mysterious Fossil Bones

Many Queer Catches Made By North Sea Fishermen

The barnacle-tusk of a mammoth found in the nest of a Grimsby trawler, is but the latest of many queer catches made by North Sea fishermen. Not a few of the fishermen's gardens along the Norfolk coast are ornamented with fossil tusks of the cave bear, elk, bison, rhinoceros, and mammoth, brought up at various times by the trawls, chiefly in certain regions about fifteen miles off Grimsby, sometimes called "the graveyard" or "the silver pits." Geologists suggest that the remains come from what was in prehistoric times the valley of the Rhine.

Sores Flee Before It.—There are many who have been afflicted with sores and have driven them away from their faces with the use of kerosene. An equally troubled should lose no time in applying this splendid remedy, as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

### Work For Unemployed

Preliminary survey of the northern part of Saskatchewan, in connection with the provincial government scheme toward solution of unemployment, has been completed, said Hon. J. A. Merkley, Minister of Labor and Industries. The proposed camp scheme can now be inaugurated, he said, in co-operation with officials of the Prince Albert National Park. It has been decided 50 men may now be employed there cutting away dead and burned wood.

### Japanese Visiting Canada

While the Canadian Chamber of Commerce is completing plans for its official tour of China and Japan, leaving Vancouver, October 16, on the liner "Empress of Russia," an important party of Japanese manufacturers and merchants arrived at Vancouver on the "Empress of Canada" for a tour of observation through Canada and the United States.

Plant life can only exist to a depth of 900 feet below sea level. Animal life can exist four miles down.

Have Minard's Liniment on your shelf.

## PLEASURE

The tingling taste of fresh mint leaves is a real treat for your sweet tooth.

## WRIGLEYS

Affords people everywhere great comfort and long-lasting enjoyment. Nothing else gives so much benefit at so small a cost.

It is a wonderful help in work and play, keeps you cool, calm and contented.

### Little Helps For This Week

"Therefore, my beloved brethren, be ye steadfast, unmovable, always abounding in the work of the Lord, forasmuch as ye know that your labor is not in vain in the Lord."—1 Corinthians xv. 58.

Though scoffers ask where is your gain,

And mocking say your work is vain, Such scoffers die and are forgot.

Work done for God, it dieth not.

Press on! press on! nor doubt nor fear.

From age to age this voice shall cheer:

What e'er you may die and be forgot, Work done for God, it dieth not.

—Thomas Knox.

When men do anything for God, the very least thing, they never know where it will end, nor what amount of work it will do for Him. Love's secret therefore is to be always doing things for God, and not to mind because they are very little ones.

—Frederick William Faber.

Heal your horse while it works. Apply Douglas' Egyptian Liniment to sore necks and galls. A sure, speedy treatment.

### The British Empire

The British Empire occupies about one-quarter of the habitable surface of the earth and its population exceeds one-quarter of the estimated number of the human race.

Minard's Liniment for Lumbago and Neuralgia.

### New Buildings For Saskatoon

During June, contracts were awarded for the construction of a Technical School and Deaf and Dumb Institute, at Saskatoon, each of them when equipped to cost in the neighborhood of \$500,000.

A drop of ink only makes millions think they think.

## TAKE NO CHANCES WITH BABY!

Cook Her Food in the "Health Ware"

Doctors recommend Enamelware for cooking baby's food. It is so simple to clean . . . so easy to keep sanitary and free from germs. It cannot stain. There is no metal surface exposed to the food. Nothing to absorb moisture, flavors nor odors.

Make sure you get McClary Enamelware . . . the Modern "Health Ware." Watch for the familiar McClary label.

to the parsonage of the Anglican  
Church; also a porch and other im-  
provements. W. Major has the  
contract and commenced work on  
Tuesday morning.

## Local and General

Send the Chronicle home.

Gilkinson's Union Giants of  
Chicago and the Virden baseball  
team play at Crossfield tonight.

Mr. and Mrs. W. McRory are  
leaving the first of the week on  
a two weeks holiday trip to Win-  
nipeg, where they will visit their  
son Chester.

J. P. Winning of the Bank of  
Commerce left on Monday for  
Empress, where he will relieve  
the manager of that branch for  
two weeks.

Mr. and Mrs. Lyburn, who  
have been the guests of Mr. and  
Mrs. J. P. Winning for the past  
two weeks, left on Tuesday for  
their home in Winnipeg.

We are informed that the man-  
agement of the U. F. A. hall will  
not tolerate any drunkenness, row-  
dism, etc. at any dances to be held  
in their hall in the future, Nuff said.

The Highway Garage, which  
was recently leased by W. J. Wood  
has been brightened up with a  
coat of paint. Texaco pumps have  
been installed. Bill is now all set  
for big business.

Mr. and Mrs. E. J. Wood, Mr.  
and Mrs. Ernest Wood of Innis-  
fail, Mr. and Mrs. Stanley Forbes  
of Edmonton, and Miss Turnbull of  
the General Hospital, Calgary,  
spent Sunday at the home of Mrs.  
S. Willis.

The August meeting of the Floral  
U. F. W. A. will be held at the home  
of Mrs. O. Bills on Wednesday,  
August 13th at 2.30. It being  
"Grandmother's Day" the roll call  
will be reminiscences (something  
you can remember about your grand-  
mother.)

Mr. and Mrs. O. E. Jones, re-  
turned on Sunday, after a motor  
trip to Southern Alberta, visiting  
their old home near Staveland, and  
visiting relatives at Carnangay.  
Mr. Jones reports that the crops are  
good in that part of the province  
this year.

Ed. Meyers has received a letter  
from Hughie McIntyre who was  
called to Avonmore, Ont. last week  
owing to the serious illness of his  
mother, who passed away six hours  
before he reached home. Hughie  
will spend some time in the East,  
visiting his father and other rela-  
tives.

Mrs. Gladys are expected home  
on Friday after spending a month  
visiting in Eastern Canada.

Lost a pocket testament, valued  
as a keepsake. Finder please leave  
at chronicle office.

D'Arcy McKinley left on Mon-  
day for his home in Drumheller.

The Cruickshank family are all  
happy once more. Last Friday  
some one made away with that  
great little pooch "Buster" and  
it was not until Wednesday that  
Buster was located at Olds and  
believe me Adam lost no time in  
getting up there. We suggested  
to Adam that he hire Squeaky  
Pete as a bodyguard for Buster.

## Horseshoe Tournament

Jim McCool and R. Nichol have  
a challenge in for the McCool chal-  
lenge horseshoe trophy, and the  
games will be played in the Park  
at 7.30 on Saturday night. Aldred  
Bros., holders of the silverware are  
ready to go, and as Jim and Russ  
have been practising day and night,  
a real contest is looked for on Sat-  
urday night.

## Inverlea Notes

Miss Jean Collicutt is home again  
after visiting for a couple of weeks  
west of Red Deer.

We notice Bob Fenwick around  
on crutches these days after being  
laid up with an injured foot. Harry  
is also himself again after a brief  
illness.

Mr. Waldo took charge of the  
Sunday afternoon service at the  
local school house. He was assisted  
by Mrs. Waldo and the Misses  
Metheral, and those present report-  
ed a very interesting meeting.

Betty and Herbert Bliss of Cal-  
gary are spending their holidays  
here with their grandmother Mrs.  
S. Garwood.

Miss Ina Fraser who has been  
visiting her sister, Mrs. T. Wilson  
of Clyde, Alberta, returned home  
the first of the week.

Mr. Ed. Michel returned home  
the last of the week after a trip to  
the Peace River district.

## COMMUNICATION

To The Editor

The Canadian Government main-  
tains about 25 immigration officers  
in the U. S. A., which was the  
means of bringing over \$14,000,000  
in settlers effects, last report in  
1929.

There is about twice as many  
holidays in this country as the U. S.,  
especially in summer, then the  
half-holiday on Wednesday—in  
harvest—is the last link in the  
chain of destruction which causes  
people to send to mail order  
houses, go to Calgary and else-  
where for their needs, or even to  
the U. S. all along the border from  
the Atlantic to the Pacific.

THOS. FITZGERALD

## Net Proceeds of Baseball

Dance and Draw \$158.00

The management of the Cross-  
field Baseball Club, take this  
means of thanking all those who  
helped in anyway in making their  
dance and draw for prizes, a fi-  
nancial success. They especially  
want to thank the U. F. A. Store  
for the use of the hall; and the  
members of the Orchestra for sup-  
plying the music; and George and  
Fong, who donated \$15.00 worth  
of refreshments.

The donors and winners of spe-  
cial prizes are as follows:

No. 1—\$10.00 Auto Rug, donated by  
Chas. Melmond of the Home Cafe.

Won by J. H. Scott, Airdrie

No. 2—\$7.50 Auto Tire, donated by F.  
Baker of The Crossfield Garage.

Won by Ed. Meyers

No. 3—\$7.50 Auto Tire, donated by Wm.  
Wood of The Service Garage.

Won by No. 58. Not called for.

No. 4—\$5.00 Piece of Silverware, donated  
by Wm. Laut.

Won by K. Barbridge

No. 5—\$5.00 Worth of Ladies' Silk Goods  
donated by Johnson's Cash Store.

Won by Norman Johnson

No. 6—\$5.00 Hat, donated by A. A. Hal-  
liday.

Won by E. Bills

No. 7—\$5.00 Box of Fancy Stationery,  
donated by M. Thomas.

Won by C. Churchill

An \$8.00 Pipe has been donated to the  
Club by Wm. Pogue. Tickets will be sold  
and a draw made on this pipe.
